

**BUZZARDS BAY SAIL AND POWER SQUADRON**  
*Presents*

**USPS WEATHER COURSE**

The safety and comfort of those who venture out on the water have always been weather dependent. In this course students will become keener observers of the weather, but weather observations only have meaning in the context of the basic principles of meteorology – the science of the atmosphere.

The course focuses on how weather systems form, behave, move, and interact with one another and reflects the availability of all sorts of weather reports and forecasts on the internet. This is a general weather course benefitting those sitting in their living room as much as those standing behind the helm.

**WHEN:**      Tuesday Evening                      6:30 – 8:30 PM  
                  January                      7; 14; 21  
                  February                      4; 11; 18; 25

*Notes:*

*We will use a virtual classroom format for all instructor and student lead presentations.*

*All classes are live on line presentations of material with student/instructor interactions.*

*All USPS materials are in electronic format and will be downloaded.*

**COST:**      USPS members \$85      non members \$185

**PRE REGISTRATION IS REQUIRED**
